VISHAL JAISWAL

DEVOPS/LINUX ENGINEER

rai737650@gmail.com | +91-7987943217 | Bhopal, MP
linkedin.com/in/vishal-jaiswal-9b01b5318

SUMMARY

Detail-oriented Linux and DevOps professional with hands-on training in building, configuring, and troubleshooting Linux environments. Proficient in Ubuntu Server administration, storage management (LVM), networking, and server security. Experienced in shell scripting for routine system administration tasks and seeking a full-time Linux System Administration or DevOps role.

EXPERIENCE

DevOps (Intern) | Vected Technologies - Bhopal, MP

- Configured and managed Ubuntu servers, including user/group administration, file permissions, and routine system troubleshooting.
- Implemented storage solutions using LVM and partitioning tools (fdisk, parted) for efficient disk space management.
- Deployed and maintained web servers (Apache2, Nginx) and configured firewall rules using firewalld and iptables for secure network access.
- Managed SELinux security settings and worked with Permissive and Enforcing modes.
- Wrote basic Bash scripts to automate routine system administration tasks such as log analysis (/var/log) and backups.

TECHNICAL SKILLS

Operating Systems: Ubuntu Server, Ubuntu Budgie

Core Capabilities: User/Group Management, File Permissions, System Troubleshooting, Log Analysis (systemctl, journalctl, /var/log)

Storage & Networking: LVM (Logical Volume Manager), Partitioning (fdisk, parted), NFS, SSH, Basic TCP/IP

Web Servers & Security: Apache2, Nginx, Firewall Management (firewalld, iptables), SELinux (Permissive, Enforcing)

Scripting: Bash Scripting, Basic Linux Commands

EDUCATION

Bachelor of Engineering in Mechanical Engineering
Bansal Institute of Research Technology and Science, Bhopal, MP
